■	Alcohol-Free Hand Sanitizer	■	Protective Sunscreen
■	Moisturizing Skin Lotion / Deep Conditioning Skin Cream	■	All Purpose Protective Cream
■	Hand & Body Shampoo		

These are recommended applications.

Entry Ways / Elevators / Hallways

Germs are transmitted from high-traffic public surfaces to hands. The addition of accessible Auto Foam dispensers and Enriched Foam Hand Sanitizers are proven to reduce the spread of germs to improve workplace wellness and upgrade your building image.

- Place Hand Sanitizer Stations with Auto Foam in entry, lobby, or elevator areas
- Place portable Hand Sanitizer bottles on reception counter and security areas/desktops
- Mount Auto Foam with Hand Sanitizer in hallways and near elevators

Restrooms

Enhance the restroom image with OneShot® Touch-Free Counter Mounted Soap systems for world-class quality and reliability that distinguishes your building and delights tenants. Adding Rubbermaid FLEX™ Moisturizing Skin Lotion in the women's restroom shows tenants you care for their skin health and give attention to detail that improves their workplace.

- Choose Foam or Liquid OneShot® systems with Green Seal™ certified* soap to help earn LEED credits, or antibacterial soaps for extra protection
- Add Skin Lotion in Rubbermaid FLEX™ 500mL dispensers for best cost-in-use, or convenient pump bottles

Workspaces

Millions of germs live on keyboards, phones, and desktops. Stop the spread of germs and improve employee and tenant health with convenient Enriched Foam Hand Sanitizers in bottles for in-between hand washings. The addition of Enriched Lotion Moisturizing Skin Lotion keeps skin healthy and employees on the job.

- Place portable Hand Sanitizer and Skin Lotion bottles on desktops
- Sanitize on the go with 1.7oz bottles ideal for pocket, purse, or briefcase

Meeting Rooms

Studies show cold and flu germs can live on hard surfaces for days and are easily transmitted with a hand shake—and on to a “working lunch.” Keep employees and tenants healthy with Enriched Foam Hand Sanitizers in-between washings when away from the restroom.

- Mount Auto Foam with Hand Sanitizer near doorways
- Place Auto Foam Hand Sanitizer Stations in larger conference rooms
- Place portable Hand Sanitizer bottles on tabletops

Break Room / Kitchen

Food borne illness is commonly spread from hands to food and from one infected person to another, causing fever, gastrointestinal illness, and lost workdays. Auto Foam Touch-Free Soap dispensing systems coupled with well-placed Enriched Foam Hand Sanitizers are recommended to stop the spread of infection.

- Mount Auto Foam with Antibacterial E2-rated soap in food handling sink areas
- Mount Auto Foam with Hand Sanitizers near serving lines, registers, and entry ways
- Place Hand Sanitizer bottles near serving lines and registers (can be mounted with wall bracket)
- Place Hand Sanitizer Stations with Auto Foam near food lines and entry ways

Workout & Locker Rooms

MRSA, as well as cold and flu, is known to spread with person-to-person contact and via contaminated, shared surfaces and objects. Encouraging good personal hygiene with a combination of Auto Foam Touch-Free Soap and Sanitizer systems and convenient, hygienic Rubbermaid FLEX™ systems with Enriched Foam or Enriched Lotion Body Shampoo can reduce the spread of disease.

- Place Auto Foam with your choice of soap at sinks
- Place Rubbermaid FLEX™ foam or liquid Body Shampoo in showers
- Mount Auto Foam with Hand Sanitizers near locker room doorways and outside workout areas
- Place Hand Sanitizer bottles in workout areas (can be mounted with wall bracket)

Childcare

Encourage hand hygiene by making Auto Foam Touch-Free Soap / Sanitizer systems easy and accessible to keep children safe and healthy. Available with safe, non-toxic Alcohol-Free Hand Sanitizer, ideal for children, and Alcohol Sanitizer.

- Place Auto Foam with your choice of soap at sinks
- Mount Auto Foam with your choice of Hand Sanitizer near doorways
- Place portable Hand Sanitizer bottles on countertops (can be mounted with wall bracket)

Building Grounds / Maintenance

For hard-working hands that get really dirty, ProRx™ durable dispensing systems and portable bottles protect, clean, and care for workers' skin.

- Mount ProRx™ 2L system with Multi Duty Hand Cleaner at work sinks
- Use Waterless Hand Cleaner at work stations in the ProRx 2L system for best cost-in-use, or in convenient pump bottles (can be mounted with wall brackets)
- For outdoor protection, use Sunscreen in portable tubes
- Protect skin and make clean-up easier with Protective Cream in portable bottles and tubes
- Care for hard-working skin with Deep Conditioning Cream in portable bottles and tubes

*This product meets the Green Seal™ standard for institutional hand cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.

Indicates products that contribute to green cleaning, sustainability, and/or LEED credits.
