# **SAFETY DATA SHEET**

Gentle Foam Soap, Dye-Free Fragrance Free

### **Section 1. Identification**

Product identifier	: Gentle Foam Soap, Dye-Free Fragrance Free
Product List	: Pacific Blue Ultra <sup>™</sup> Gentle Foam Soap, Fragrance Free SKU 43714 Pacific Blue Ultra <sup>™</sup> Automated Gentle Foam Soap, Fragrance Free SKU 43716 Pacific Blue Select <sup>™</sup> Gentle Foam Soap, Fragrance Free SKU 44723 Marathon® Manual Gentle Foam Soap Refill, Fragrance Free SKU 7671200 Marathon® Automated Gentle Foam Soap, Fragrance Free, Dye Free SKU 7571100
Other means of identification	: Not available.
SDS #	: Not available.
Product type	: Liquid
	chemical and restrictions on use
Recommended use	
Hand cleanser	
Restrictions on use This product is regulated as	a cosmetic in the US and is intended for personal care use.
Supplier's details	: Georgia-Pacific Consumer Products LP 133 Peachtree Street NE Atlanta, GA 30303
	Technical Information: 866.435.5647 SDS Request: 404.652.5119 E-mail: SDSREQ@gapac.com
Emergency telephone number (with hours of operation)	: Chemtrec - Emergency: 800.424.9300
Section 2. Hazar	ds identification
OSHA/HCS status	: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Classification of the : EYE substance or mixture

(29 CFR 1910.1200). : EYE IRRITATION - Category 2B

**GHS label elements** Signal word : Warning **Hazard statements** : Causes eye irritation. **Precautionary statements** General : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. **Prevention** : Wash thoroughly after handling. Response : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. **Storage** : Store away from incompatible materials (see Section 10). Disposal ŝ, Dispose of contents and container in accordance with all local, regional, national and international regulations.

        : 10/13/2021
        Date of previous issue
        : No previous validation
        Version
        : 1
        1/11
```

### Section 2. Hazards identification

Hazards not otherwise classified

: None known.

### Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Ingredient name	%	CAS number
SODIUM LAURETH SULFATE	≤5	68585-34-2
GLYCERIN	≤1.5	56-81-5
COCAMIDOPROPYL BETAINE	≤0.3	61789-40-0

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

#### **Composition Comments**

Not available.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

#### Description of necessary first aid measures

Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. If irritation persists, get medical attention.</li> </ul>
Inhalation	<ul> <li>Not a normal route of exposure. Move exposed person to fresh air. Get medical attention if symptoms occur.</li> </ul>
Skin contact	: If irritation occurs, flush skin with plenty of water. Call a physician if irritation persists.
Ingestion	: If swallowed, rinse mouth with water (only if the person is conscious). Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important sympt	oms/effects, acute and delayed	
Potential acute healt	<u>n effects</u>	
Eye contact	: Causes eye irritation.	
Inhalation	: No effects expected under normal conditions of use.	
Skin contact	: No effects expected under normal conditions of use. Prolonged skin contact may cause temporary irritation.	
Ingestion	: May cause gastrointestinal irritation if ingested.	
Over-exposure signs/symptoms		
Eye contact	: Adverse symptoms may include the following: irritation watering redness	
Inhalation	: No specific data.	
Skin contact	: No specific data.	
Ingestion	: No specific data.	

#### Indication of immediate medical attention and special treatment needed, if necessary

### Section 4. First aid measures

Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

### Section 5. Fire-fighting measures

-	
Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide sulfur oxides metal oxide/oxides
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Section 6. Accidental release measures

Personal precautions, protect	tiv	e equipment and emergency procedures
For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### Methods and materials for containment and cleaning up

Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up
	if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and
	place in an appropriate waste disposal container. Dispose of via a licensed waste
	disposal contractor.

3/11

### Section 6. Accidental release measures

Large spill	: Approach release from upwind. Stop leak if without risk. Move containers from spill
	area. Prevent entry into sewers, water courses, basements or confined areas. Wash
	spillages into an effluent treatment plant or proceed as follows. Contain and collect
	spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or
	diatomaceous earth and place in container for disposal according to local regulations
	(see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated
	absorbent material may pose the same hazard as the spilled product. Note: see
	Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and storage

Precautions for safe handling		
Protective measures	flush eyes with water.	ut of reach of children. Avoid contact with eyes; in case of Wear gloves and safety glasses or goggles if handling uate ventilation. Avoid release to the environment.
Advice on general occupational hygiene	noroughly after handling measures.	g. See also Section 8 for additional information on
Conditions for safe storage, including any incompatibilities	unlight in a dry, cool an ction 10) and food and or use. Containers that to prevent leakage. Do	regulations. Store in original container protected from d well-ventilated area, away from incompatible materials drink. Keep container tightly closed and sealed until have been opened must be carefully resealed and kept o not store in unlabeled containers. Use appropriate tental contamination. See Section 10 for incompatible se.

### Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

Ingredient name	Exposure limits
SODIUM LAURETH SULFATE	None.
GLYCERIN	OSHA PEL (United States, 5/2018).
	TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Respirable
	fraction
	TWA: 15 mg/m <sup>3</sup> 8 hours. Form: Total dust
COCAMIDOPROPYL BETAINE	None.

Appropriate engineering controls	:	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures	
Hygiene measures	None necessary under normal conditions of use.
Eye/face protection	None necessary under normal conditions of use. Wear safety glasses or goggles if handling large quantities.
Skin protection	
Hand protection	None necessary under normal conditions of use. Wear appropriate gloves if handling large quantities.
Body protection	None necessary under normal conditions of use.

### Section 8. Exposure controls/personal protection

Other skin protection

: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### **Respiratory protection** : In case of insufficient ventilation, wear suitable respiratory equipment.

### Section 9. Physical and chemical properties

Appearance		
Physical state	: Liquid	
Color	Colorless to pale yellow, dye free.	
Odor	Fragrance Free	
Odor threshold	Not available.	
рН	5 to 6	
Melting point	Not available.	
Boiling point	Not available.	
Flash point	Not available.	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not available.	
Lower and upper explosive (flammable) limits	Not available.	
Vapor pressure	Not available.	
Vapor density	Not available.	
Relative density	: 1.01	
Solubility	Easily soluble in the following materials: cold water and hot water.	
Solubility in water	Miscible in water.	
Partition coefficient: n- octanol/water	Not applicable.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Not available.	

### Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: Avoid freezing, if product freezes allow product to return to a liquid state and shake before use.
Incompatible materials	: Reactive or incompatible with the following materials: oxidizing materials
Hazardous decomposition products	: Small amounts of nitrogen oxides, carbon monoxide, carbon dioxide and hydrocarbons may be released.

### Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
GLYCERIN	LD50 Dermal LD50 Oral LD50 Oral	Rat	>5000 mg/kg 12600 mg/kg >5000 mg/kg	- -

#### Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
GLYCERIN	Eyes - Mild irritant	Rabbit	-	24 hours 500 mg	-
	Skin - Mild irritant	Rabbit	-	24 hours 500	-
COCAMIDOPROPYL BETAINE	Eyes - Severe irritant	Rabbit	-	24 hours 100 UI	-

#### Sensitization

Not available.

#### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

#### **Reproductive toxicity**

Not available.

#### Teratogenicity

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Not available.

### Information on the likely : Not available.

routes of exposure		
Potential acute health effect		
Eye contact	Causes eye irritation.	
Inhalation	No effects expected under normal conditions of use.	
Skin contact	No effects expected under normal conditions of use. Prolonged skin contact may cau temporary irritation.	se
Ingestion	May cause gastrointestinal irritation if ingested.	

#### Symptoms related to the physical, chemical and toxicological characteristics

### Section 11. Toxicological information

Eye contact	: Adverse symptoms may include the following: irritation watering
	redness
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

#### Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Long term exposure	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Potential chronic health effe	<u>cts</u>
Not available.	
General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental effects	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.

#### Numerical measures of toxicity

Acute toxicity estimates

Not available.

### Section 12. Ecological information

<u>Toxicity</u>					
Product/ingredient name	Result	Species	Exposure		
SODIUM LAURETH SULFATE	Acute EC50 3.43 mg/l Fresh water	Crustaceans - Ceriodaphnia dubia - Neonate	48 hours		
GLYCERIN	Acute LC50 >100 mg/l	Fish	96 hours		
COCAMIDOPROPYL BETAINE	Acute LC50 0.28 to 2.8 mg/l	Fish	96 hours		
	Chronic NOEC 16 mg/l	Fish	28 days		

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

### Section 12. Ecological information

Product/ingredient name	LogPow	BCF	Potential
GLYCERIN	-1.76	-	low

#### Mobility in soil

Other adverse effects

: Harmful to aquatic life.

### Section 13. Disposal considerations

#### **Disposal methods**

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

	DOT Classification	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Packing group	-	-	-
Environmental hazards	No.	No.	No.

Additional information

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

## Section 15. Regulatory information

Ŭ	5			
U.S. Federal regulations	: TSCA 8(a) CDR Exempt/Partial exemption: Not determined			
United States	: SDS prepared pursuant to the Hazard Communication Standard (29 CFR 1910.1200). This product is regulated under the US Federal Food, Drug, and Cosmetic Act.			
Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs)	: Not listed			
Clean Air Act Section 602 Class I Substances	: Not listed			
Clean Air Act Section 602 Class II Substances	: Not listed

### Section 16. Other information

#### Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

#### National Fire Protection Association (U.S.A.)

#### Notice to reader

This SDS is intended to quickly provide useful information to the user(s) of this material or product. It is not intended to serve as a comprehensive discussion of all possible risks or hazards, and it assumes a reasonable use of the product. The information contained in this SDS is believed to be accurate as of the date of preparation of this SDS and has been compiled from sources believed to be reliable. It is offered for your consideration, investigation and verification. The user or handler (or their employer) should consider the specific conditions in which this material will be used, handled, or stored and determine what specific safety or other precautions are required. Employers should ensure that their employees, agents, contractors, and customers who will use the product receive adequate warnings and safe handling procedures, including a current SDS. Product users or handlers (or their employer) who are unsure of what specific precautions are required should consult their employer, product supplier, or safety or health professionals before handling or working with this product. Please notify us immediately if you believe this SDS or other safety and health information about this product is inaccurate or incomplete.
