# SAFETY DATA SHEET

# 1. Identification

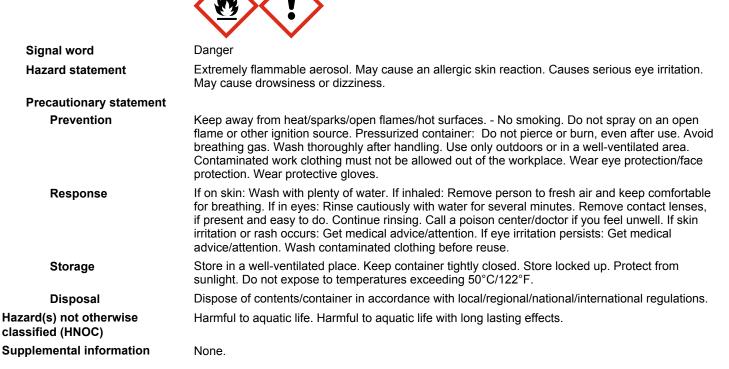

| Product number                    | N-02108  |
|-----------------------------------|--|
| Product identifier                | NASSCO TROPICAL BREEZE METERED AIR                                       |
| Company information               | NASSCO<br>5365 SOUTH MOORLAND ROAD<br>NEW BERLIN, WI 53151 United States |
| Company phone                     | General Assistance 800-729-6726  |
| Emergency telephone US            | 1-866-836-8855   |
| Emergency telephone outside<br>US | 1-952-852-4646   |
| Version #                         | 01   |
| Recommended use                   | Air Freshener  |
| Recommended restrictions          | None known.  |
| 0 llanard(a) identification       |  |

# 2. Hazard(s) identification

| Physical hazards     | Flammable aerosols                              | Category 1                  |
|----------------------|---|-----------------------------|
| Health hazards       | Serious eye damage/eye irritation               | Category 2A                 |
|                      | Sensitization, skin                             | Category 1                  |
|                      | Specific target organ toxicity, single exposure | Category 3 narcotic effects |
| OSHA defined hazards | Not classified.                                 |                             |

**OSHA** defined hazards

#### Label elements

# 3. Composition/information on ingredients

**Mixtures** 

| Chemical name | Common name and synonyms | CAS number | %       |
|---------------|--------------------------|------------|---------|
| Acetone       |                          | 67-64-1    | 60 - 80 |

| Chemical name          | Common name and synonyms | CAS number | %        |
|------------------------|--------------------------|------------|----------|
| Butane                 |                          | 106-97-8   | 10 - 20  |
| Propane                |                          | 74-98-6    | 10 - 20  |
| Allyl Hexanoate        |                          | 123-68-2   | 0.1 - 1  |
| Hexyl cinnamal         |                          | 101-86-0   | 0.1 - 1  |
| Other components below | reportable levels        |            | 2.5 - 10 |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

# 4. First-aid measures

| Inhalation   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.   |
|--|---|
| Skin contact   | Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.  |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.                             |
| Ingestion  | In the unlikely event of swallowing contact a physician or poison control center. Rinse mouth.  |
| Most important<br>symptoms/effects, acute and<br>delayed                     | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation.<br>Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Dermatitis. Rash. |
| Indication of immediate<br>medical attention and special<br>treatment needed | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.  |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.   |

# 5. Fire-fighting measures

| Suitable extinguishing media                                     | Alcohol resistant foam. Powder. Carbon dioxide (CO2).  |
|--|--|
| Unsuitable extinguishing media                                   | Do not use water jet as an extinguisher, as this will spread the fire.   |
| Specific hazards arising from the chemical                       | Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.  |
| Special protective equipment<br>and precautions for firefighters | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.   |
| Fire fighting<br>equipment/instructions                          | Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out. |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers. In the event of fire and/or explosion do not breathe fumes.          |
| General fire hazards   | Extremely flammable aerosol.   |

# 6. Accidental release measures

| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing gas. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.  |
|---|---|
| Methods and materials for containment and cleaning up                     | Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Prevent product from entering drains. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. |
|   | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.   |
| Environmental precautions   | Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all<br>environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into<br>drains, water courses or onto the ground.  |

# 7. Handling and storage

| Precautions for safe handling   | Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Avoid breathing gas. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices. |
|---------------------------------|--|
| Conditions for safe storage,    | Level 3 Aerosol.   |
| including any incompatibilities | Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Store away from incompatible materials (see Section 10 of the SDS).   |

# 8. Exposure controls/personal protection

## **Occupational exposure limits**

| Other Wear appropriate chemical resistant clothing.  |  |  |  |
| <b>Respiratory protection</b> If permissible levels are exceeded use NIOSH mechanical filter air-supplied respirator.  | ·/ organic vapor cartridge or an   |  |  |
| Thermal hazards Wear appropriate thermal protective clothing, when necessary.  |  |  |  |

When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

## 9. Physical and chemical properties

| Appearance                                 |  |
|--|--|
| Physical state                             | Gas.                                       |
| Form                                       | Aerosol.                                   |
| Color                                      | Not available.                             |
| Odor                                       | Not available.                             |
| Odor threshold                             | Not available.                             |
| рН   | Not available.                             |
| Melting point/freezing point               | Not available.                             |
| Initial boiling point and boiling range    | 132.89 °F (56.05 °C) estimated             |
| Flash point                                | -156.0 °F (-104.4 °C) PROPELLANT estimated |
| Evaporation rate                           | Not available.                             |
| Flammability (solid, gas)                  | Not available.                             |
| Upper/lower flammability or exp            | losive limits                              |
| Flammability limit - lower<br>(%)          | 2.4 % estimated                            |
| Flammability limit - upper<br>(%)          | 11.9 % estimated                           |
| Explosive limit - lower (%)                | Not available.                             |
| Explosive limit - upper (%)                | Not available.                             |
| Vapor pressure                             | 60 - 70 psig @70F estimated                |
| Vapor density                              | Not available.                             |
| Relative density                           | Not available.                             |
| Solubility(ies)                            |  |
| Solubility (water)                         | Not available.                             |
| Partition coefficient<br>(n-octanol/water) | Not available.                             |
| Auto-ignition temperature                  | Not available.                             |
| Decomposition temperature                  | Not available.                             |
| Viscosity                                  | Not available.                             |
| Other information                          |  |
| Density                                    | 0.15 g/cm3 estimated                       |
| Explosive properties                       | Not explosive.                             |
| Oxidizing properties                       | Not oxidizing.                             |
| Specific gravity                           | 0.784 estimated                            |
|  |  |

# 10. Stability and reactivity

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport. |
|---------------------------------------|---|
| Chemical stability                    | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions | Hazardous polymerization does not occur.  |
| Conditions to avoid                   | Avoid temperatures exceeding the flash point. Contact with incompatible materials.            |
| Incompatible materials                | Strong oxidizing agents. Nitrates. Fluorine. Chlorine.  |
| Hazardous decomposition<br>products   | No hazardous decomposition products are known.  |

# 11. Toxicological information

## Information on likely routes of exposure

| Inhalation   | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Prolonged inhalation may be<br>harmful.   |
|--|---|
| Skin contact   | May cause an allergic skin reaction.  |
| Eye contact  | Causes serious eye irritation.  |
| Ingestion  | Expected to be a low ingestion hazard.  |
| Symptoms related to the<br>physical, chemical and<br>toxicological characteristics | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation.<br>Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Dermatitis. Rash. |

#### Information on toxicological effects

| Acute toxicity | Narcotic effects. May cause an allergic skin reaction. |

| Packaging exceptions         | 306   |
| Packaging non bulk           | None  |
| Packaging bulk               | None  |

This product meets the exception requirements of section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the "Consumer Commodity - ORM-D" marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/20 and may be used now in place of the "Consumer Commodity ORM-D" marking and both may be displayed concurrently.
