Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions	Use personal protection recommended in Section 8. Ensure adequate ventilation, especially in confined
	areas.
For emergency responders	Isolate area. Keep unnecessary personnel away.
Environment Precautions	
Environmental Precautions	Prevent entry into waterways, sewers, basements or confined areas. See Secion 12 for additional
	ecological information.
Methods and material for contain	nent and cleaning up
Methods for containment	Prevent further leakage or spillage if safe to do so. Contain and collect spillage with non-combustible
	absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container
	for disposal according to local/national regulations (See Section 13).
Methods for cleaning up	Use clean non-sparking tools to collect absorbed material. May be ignited by friction, heat, sparks or

Handling and Storage

Precautions for Safe Handling

Advice on Safe Handling

Keep away from heat sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity). Take precautionary measures against static discharges. Do not eat, drink or smoke when using this product. Use personal protection recommended in Section 8. Avoid contact with skin, eyes or clothing. Use only in well-ventilated areas. Avoid breathing vapors or mists. Wash thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities

Storage Conditions	Keep Containers tightly closed in a dry, cool and well-ventilated place. Keep from freezing. Keep away
	from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static
	electricity). Store between 40 to 100 \degree F .
Incompatible materials	Heat, sparks, open flame, other ignition sources. Reacts violently with strong oxidants such as nitric
	acid and silver nitrate causing fire and explosion hazard. Reacts slowly with calcium hypochlorite and
	ammonia causing fire and explosion hazard.
