

OUTSCRUBS. OUTPERFORMS. IT'S REVOLUTIONARY.

REV™. There's never been another scrubber like it.

The remarkable REV automatic floor scrubbers from Advance are nothing like you've ever seen. In a single pass, our exclusive Random Orbital Scrubbing technology scrubs deeper and more uniformly, leaving your floors with a perfectly scrubbed surface with no swirl marks.

A revolution at work. The end of floor stripping as you know it.

You'll see the amazing results immediately. The REV is the first and only floor scrubber that scrubs with distinct orbital and rotational motions: high speed

$\frac{1}{4}$ inch **micro scrubbing** and rotational low speed **macro scrubbing**. This powerful, patent-pending combination delivers a uniform, non-swirled floor surface while using far less water and chemicals. In addition to being a superior daily scrubber, REV is so effective at deep scrubbing, you can remove floor finish in a single pass—with no chemicals at all—leaving floors ready for restoration.

REV: Better results. Increased productivity. Sustainable cleaning.

Now available in four models, the REV with Random Orbital Scrubbing technology provides these important benefits for facility floor maintenance:

- **BETTER** scrubbing with a more uniform result
- **MORE EFFICIENT** restoring floors can now be a one-person job
- **GREENER** using less chemicals, water, energy and labor
- **QUIETER** allowing scrubbing at any time of the day
- **CLEANER** scrubbing action that won't spread solution to adjacent surfaces or carpet
- **MORE FLEXIBLE** using water only or complete control of detergent, preventing overutilization

THE AMAZING SCRUBBING POWER OF REV™

Now Available in Four Models.

FM800™ REV™

The most efficient scrubber for small areas and detail work.

With powerful orbital scrubbing at 1,725 ¼ inch orbits per minute, the FM800 REV tackles cleaning challenges that larger scrubbers can't reach. High durability and high-speed orbital agitation ensure aggressive scrubbing for chemical-free floor finish removal.

ADFINITY™ X20R REV™

The most versatile, maneuverable floor scrubber.

The Adfinity X20R REV surpasses the performance of other scrubbers in its class, featuring dual-action scrubbing capabilities. Attacking dirt and floor finish from multiple angles, the Adfinity REV delivers uniform daily scrubbing performance and deep scrubbing for chemical-free finish removal in a single pass.

SC750™ REV™

The powerful, high-capacity workhouse for daily cleaning.

The SC750 REV combines the innovative REV technology with enhanced cleaning performance. With a 40% wider scrub path and 20% faster scrubbing capabilities than 20 inch floor scrubbers, the SC750 REV increases productivity, allowing operators to cover more floor area in less time with equal or better cleaning results.

ADVENGER® REV™

The highest performance, highest capacity REV scrubber.

Offering increased productivity up to 39,424 sq. ft. per hour, EcoFlex™ cleaning control and large capacity for up to 140 minutes of continuous scrubbing, the Advenger® rider scrubber with REV technology delivers high performance scrubbing, the most flexible cleaning and the convenience and comfort of a rider.

	Adfinity™ X20R REV™	SC750™ REV™	Advenger® REV™
Scrub Path	20 inches	28 inches	28 inches
Scrub Pressure	50 lb / 70 lb	80 lb / 170 lb	80 lb / 125 lb / 175 lb
Max Productivity	26,400 ft²/hr at 3 mph	41,900 ft²/hr at 3.4 mph	39,424 ft²/hr at 3.12 mph

Strip 90% of the labor out of floor restoration.

With patent-pending Random Orbital Scrubbing technology, and only water, REV can easily remove old floor finish in a single pass with no swirl marks. By reducing the number of people, additional equipment, and hazardous chemicals needed, using the REV can reduce your labor time during floor restoration by up to 90%. Now you can have a superior daily scrubber and powerful deep scrubber – all in one machine.

You may never need to strip your floors again.

The REV is a revolutionary way to restore floors. The Random Orbital Scrubbing power of REV technology scrubs so effectively, you can remove old finish from floors using only water. And best of all, REV leaves no annoying swirl marks or uneven wear paths. Not only will you save significant time and labor, you can do away with corrosive and hazardous floor strippers and extra equipment.

REV™ Technology

Conventional Disc Scrubber

- Remove finish with surface prep pad
- A perfectly uniform, swirl-free surface
- No mess, no fuss
- Less time and chemicals
- Inconsistent surface with swirl marks
- Chemical spray that damages adjacent carpets and baseboards
- More time, staff and chemicals
