

Where **People** and **Productivity** Meet™

March 13, 2020

Nassco, Inc. continues to closely monitor the developments of COVID-19. In an effort to continue service and delivery of our products, we will work to keep the well-being of our staff and customers as our primary focus. We are actively following the guidance and best practice recommendations of the Centers for Disease Control and Prevention and the World Health Organization.

We have taken various actions to ensure the safety and well-being of our employees and customers. We are limiting visitors to our facilities and discouraging non-essential visits at this time. Our Drivers and Service Technicians have been equipped with additional hygiene and cleaning supplies for their trucks and vehicles. Personal protective equipment has been supplied for their health and safety, as well as the health and safety of our customers.

We will continue to work with our suppliers in order to fulfill orders, while maintaining inventory levels of our most critical product to serve your needs. As supply chain challenges evolve, we are dedicated to providing you the service that you know and trust from our team.

We are working closely with our staff to maintain business continuity. From Drivers, to Service Staff, we are very sensitive to your specific facility needs and requirements. Please contact your Nassco Sales Representative should you need additional resources or have changing requirements.

Thank you for your business and continued support.

In Good Health,

A handwritten signature in blue ink, appearing to read "M. Melzer". The signature is fluid and cursive.

Mark Melzer
