Low Acid Clinging Bowl Cleaner is a thickened, clinging, 9% hydrochloric acid formula for cleaning toilet bowls, urinals, and other porcelain surfaces in washrooms. This low acid formula easily flows and coats vertical surfaces for effective cleaning and deodorizing. Removes water scale, calcium, lime, iron/rust, and uric acid buildups.

**DIRECTIONS**
Read entire label and SDS for proper use, handling and storage before using this product. This product contains hydrochloric acid and should only be used inside toilet bowls and urinals or on other acid safe surfaces. Bowl cleaners should not be used on chrome or metal surfaces such as fixtures or faucets. Use in well-ventilated areas on acid-safe surfaces. Do not mix with ammonia or bleach. Wear appropriate personal protective equipment including gloves and glasses.

1. Flush toilet or urinal
2. Push water down and out of toilet bowl with bowl mop
3. Apply 2-3 oz. of bowl cleaner to inside of bowl or urinal
4. Swab interior surfaces with bowl mop
5. Clean area under rim
6. Flush to rinse
7. If heavy scale or rust deposits are present, Nassco High Acid Bowl Cleaner 04 may be used in a restorative process
