SKU	20077	20000
Put-Up	Tall Box	1/4 fold
Packs/Case	10	18
Sheets/Pack	120	65
Size	9.25" x 12.2"	13" x 12.5"
Case Cube	2.933	2.623

Brawny Industrial™ Oatmeal Medium Duty Premium All Purpose EPA DRC Wipers

20077

Brawny Industrial™ White Medium Duty EPA Compliant 1/4 Fold DRC Wipers

20000

Designed for customers (see segments above) who may benefit by using a high-function, all-purpose wiper that is soft and absorbent and meets or exceeds the EPA Guidelines for Post-Consumer content (40%).*

These GP Double Recrepe products also known as DRC are offered in a quarter fold configuration and a dispensing box. DRC products are considered to be all-purpose featuring high absorbency rates compared to some cloth rags and many other disposable wiper substrates.

To compare, airlaid disposable wipers (an alternative disposable wiper

substrate) have a faster absorbency rate, but have a lower tensile (tear) strength. Also to compare another (alternative disposable wiper substrate), Hydro Entangled Fibers (HEF) do not have the same speed of absorbency as DRC (or airlaid) however, they have a greater tensile (tear) strength.

Highly soft absorbent DRC wipers by GP work on grease, grime, oil and water. The combination of functionality, performance and EPA compliance provides customers with a good overall value in this wiper group when customers are looking for absorbency and cross-functional use.

Operational Efficiency

- Brawny Industrial™ Premium EPA Compliant Wipers meet the EPA Guidelines for Post-Consumer recycled content with at least 40% Post-Consumer recycled fiber
- Part of the GP Green by Design™ platform reflects our intentions to protect the environment, operate in a sustainable fashion and deliver products that make a difference for the planet and our customers

Safety

- These GP DRC products are the industry's first disposable non-woven wipers to meet or exceed the EPA Guidelines for Post-Consumer content (40%)
- Help customers reach their sustainability objectives with GP wipers that meet or exceed the EPA Guidelines for Post-Consumer content

Cost-In-Use

- The 20077 dispenser box features 33% more sheets per box resulting in less packaging (Source Reduction) vs. GP 20000
- The 20077 sheet size is reduced with no reduction in product performance
- The 20077 convenient dispensing box features one-at-a-time dispensing to help control cost and protect the product from dirt, grime and moisture when the products are not being used

*Contains at least 40% Post-Consumer recycled fiber
