- Clean Towels
- Clean Utility Bucket

## Products Needed

Dawn® Manual  
Pot and Pan  
Detergent

Clean Quick® Broad  
Range Quaternary  
Sanitizer

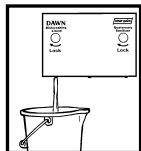

**FREQUENCY OF CLEANING:** Monthly or at the first sign of visible debris on the ice contact surface. Inspect the ice contact surfaces at least once per week.

**SPECIAL DIRECTIONS FOR THIS TASK:** If sensitivity to cleaning solutions is a concern, wear disposable gloves.

### STEP 1

- Remove the top cover to gain access to the ice bin.
- Empty the ice bin.

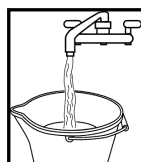

### STEP 2

- Fill a utility bucket with warm Dawn solution from the Dilution Center.

### STEP 3

- Dip long-handle scrub brush into Dawn solution and scrub all ice contact surfaces. Remove all mold and debris.

### STEP 4

- Fill the another utility bucket with warm rinse water from the sink.

### STEP 5

- Rinse the surfaces with the water in the rinse bucket until no Dawn solution remains in the system.

**NOTE:** This will take several rinses.

- Wipe out excess rinse water with clean towel.

### STEP 6

- Put on clean disposable gloves.
- Spray all interior surfaces with 200 ppm Quat Sanitizer.

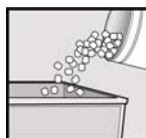

**Important:** Avoid contaminating interior surfaces of ice bin after sanitizing.

### STEP 7

- Allow system to drain thoroughly

### STEP 8

- Refill bin with fresh ice.
- Dispense 2 cups of ice and discard.

### STEP 9

- If used, remove and discard disposable gloves.
- Wash hands before returning to service area.
