# Advanced technology that transforms the washroom experience

The enMotion® Recessed Automated Towel Dispenser turns an ordinary wall into a great one. Its sleek stainless steel finish and stylish design make it as impressive visually as it is functionally. Its “hands free” towel delivery helps minimize the risk of cross-contamination, and its controlled dispensing feature reduces towel usage by up to 30 percent compared to folded towels.\* Take a look and you’re sure to discover why the popularity of enMotion® dispensers is soaring and why they are the ultimate solution for today’s contemporary washroom.

## enhances image

Sleek, stainless steel styling conveys a high-end image.

## helps improve hygiene

“Touchless” dispensing helps minimize the risk of cross-contamination and helps create a more hygienic environment.

## meets EPA Guidelines

Some towel options that meet EPA Guidelines for recycled fiber content.

## less waste

One-at-a-time towel dispensing helps reduce waste.

## meets ADA Guidelines

enMotion® dispenser meets ADA guidelines when properly installed.

91%

of enMotion® recessed dispenser customers are overwhelmingly satisfied with its performance.\*\*

## enMotion® Impulse® 8

Due to popular demand, the enMotion® Impulse® 8 is designed specifically for office breakrooms or anywhere space is tight. It takes up less vertical space, yet uses the same 8.25" wide roll towel as the enMotion® recessed dispenser and it delivers many of the same benefits as its larger predecessors.

# features with style

Georgia-Pacific offers automatic touchless dispensing technology in one system with a sleek, stainless steel finish and a recessed cabinet design.

## recessed mounting

- Meets ADA requirements when properly installed
- Creates more walk-thru space
- Built-in look and feel
- Professional installation available
- Reversible door for versatile installation

## automated touchless dispensing

- Conveys image of high-tech facility
- Helps reduce risk of cross-contamination
- Promotes tenant satisfaction

## electronic sensor icons

-  Paper maintenance needed
-  Dispensing activity
-  Low battery indicator
- Ease of maintenance
- Labor savings

## adjustable settings

- Includes Sheet Length, Sensor Time Delay, and Dispensing Mode

## single towel dispensing

- Controls usage
- Increases operational efficiency
- Helps reduce waste
- Towel transfer mechanism allows for continuous service

## optional high capacity stainless steel trash receptacle

- Turnkey solution
- Labor savings
- Promotes well-maintained washroom
- Matches other stainless steel fixtures
- Meets ADA requirements when properly installed

## multiple power options

- 4 standard alkaline D cell batteries
- Easy-to-install batteries
- Optional AC adaptor available for purchase

## multiple towel options

Premium, high capacity, as well as multiple towel options that meet EPA guidelines for recycled fiber content

CERTIFIED  
**EcoLogo**™

## Protect the environment and enhance your customers' washroom experience

- The Eco Logo certified roll towel option made from 100% recycled fiber is now a sustainable option for enMotion® Recessed Automated Towel and enMotion® Impulse® dispenser.
- Our enMotion® Automated Towel Dispenser and our EPA compliant towel provide opportunities to earn points for the U.S. Green Building Council's LEED\*\* Certification.
- At Georgia-Pacific, we support the Environmental Protection Agency's strategies of Reduce, Reuse and Recycle. In addition, we help our end user customers demonstrate that their facilities are sustainable, in part due to the environmental dispensing systems and paper products they choose.
