

The next level.

It's not just a new dispenser.
It's a whole new technology.

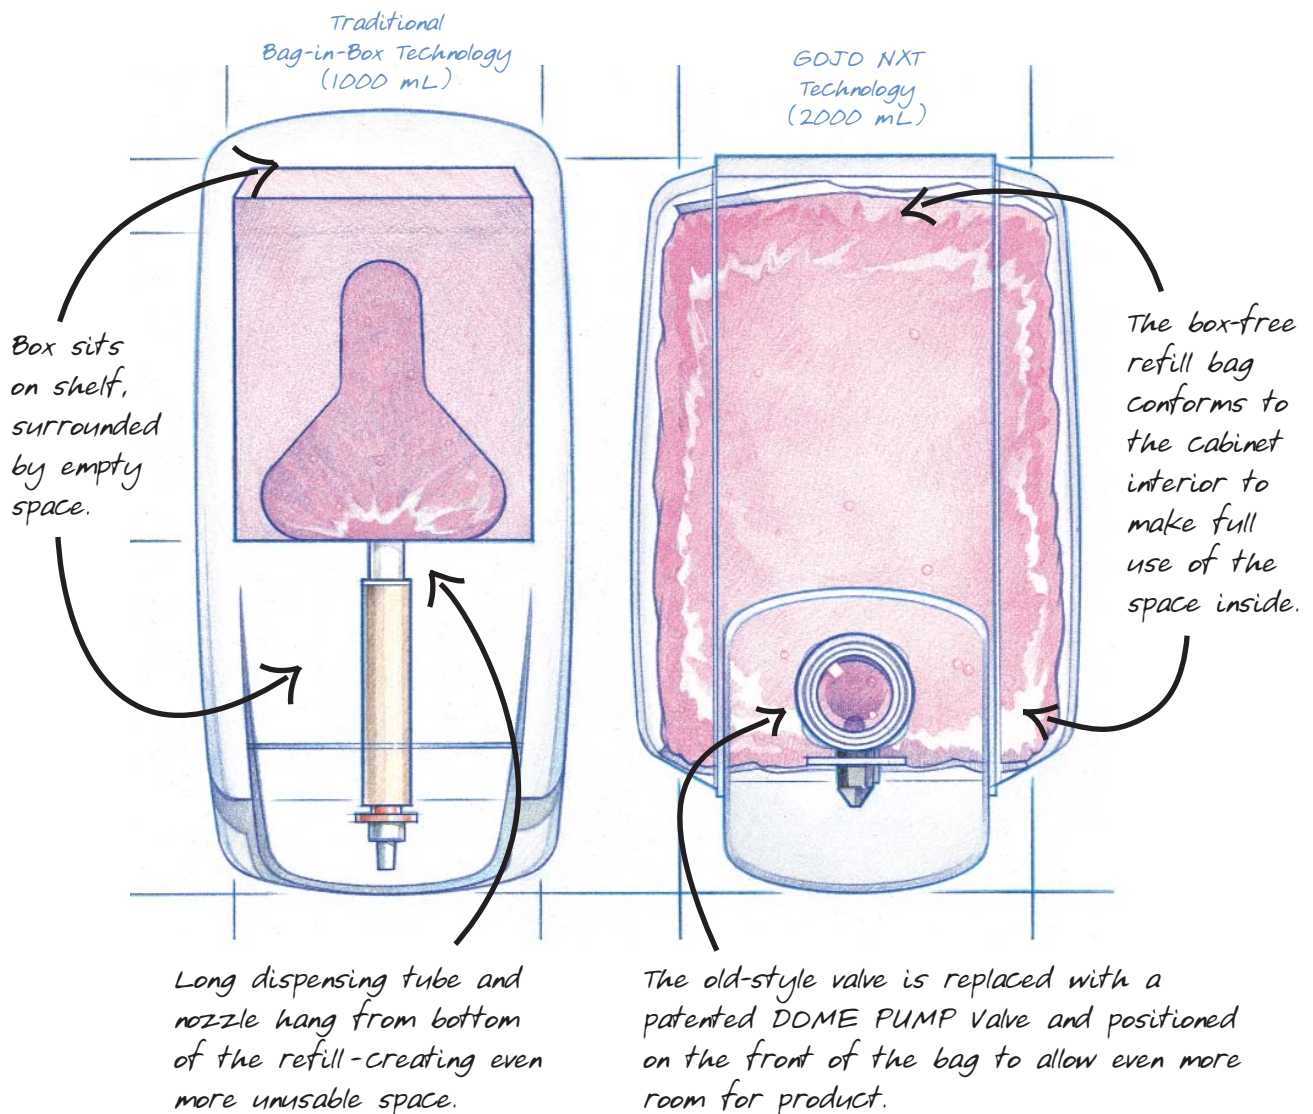

The next level in capacity.

It almost defies the laws of physics.

How can the GOJO® NXT® Dispensing System be so big inside...so compact outside? The cabinet interior and patented DOME PUMP™ Valve optimize space utilization. You get twice as much product in the same space as traditional bag-in-box systems. The larger capacity of the GOJO NXT Dispensing System means that it needs refilling less often by your maintenance crew. Best of all, you're less likely to hear anyone ever complain about an "out of soap" dispenser.

Twice as much soap - right out of thin air.

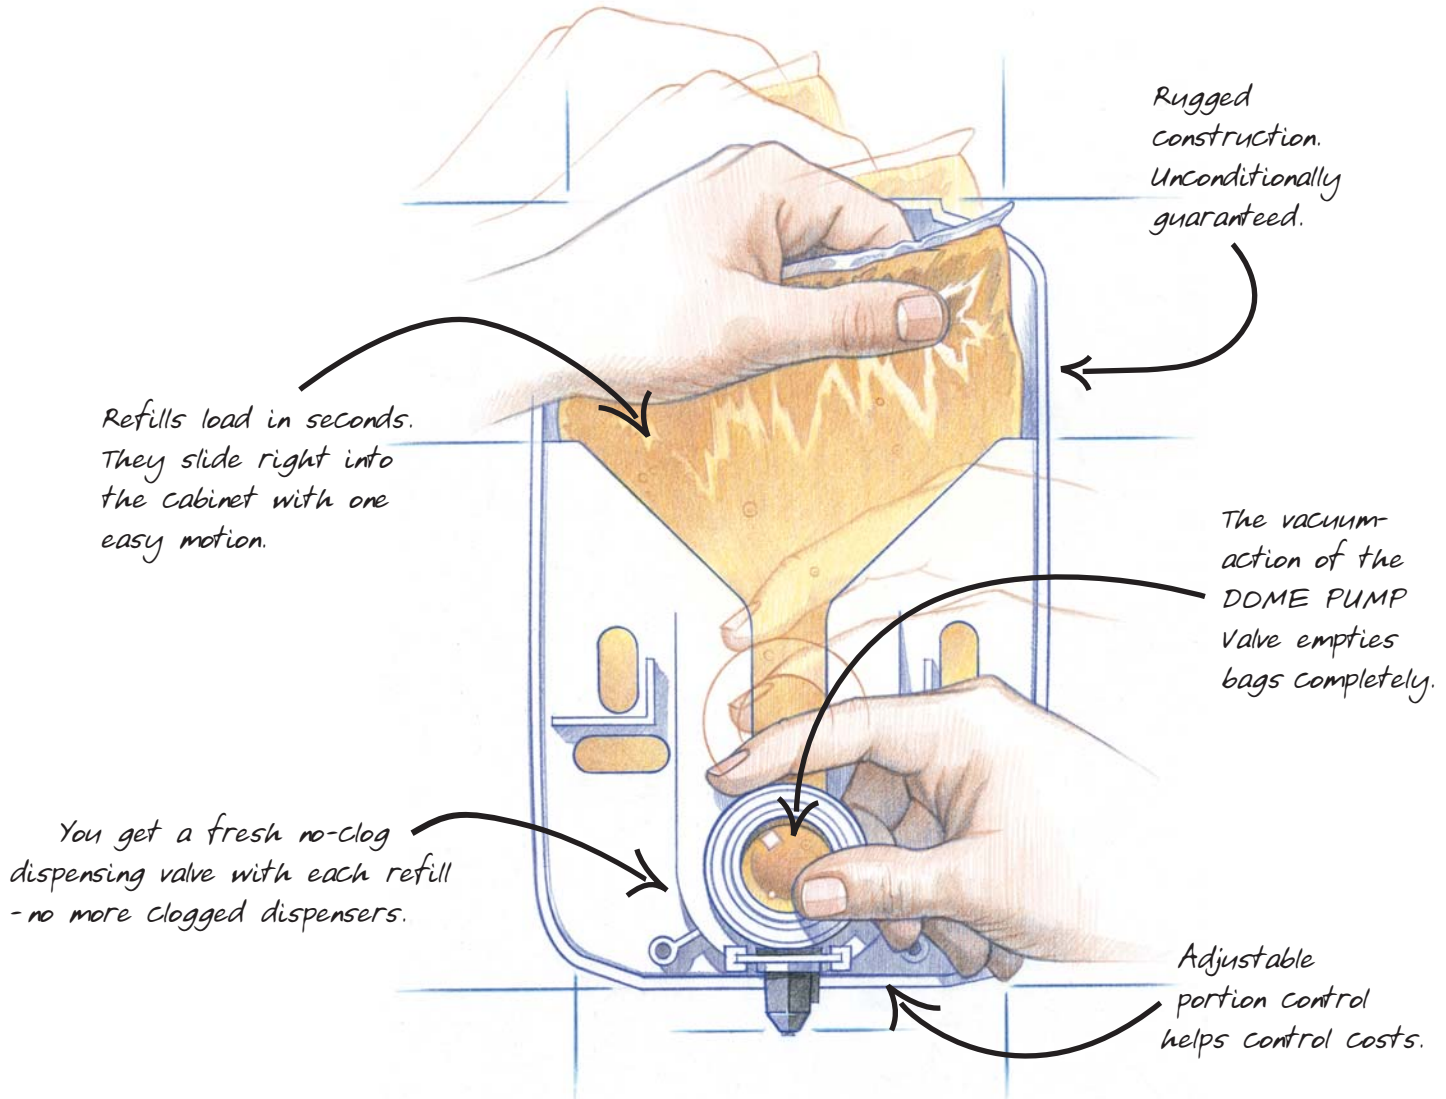

The DOME PUMP™ Valve also acts as a sight window, so it's easy to see when it's time to refill.

ADA-compliant, one hand push operation reinforces installation with each use.

Easy to install. Easy to load. Easy to maintain.

The next level in design.

Designed to look better...engineered to be better.

Beneath its sleek, sophisticated lines, GOJO® NXT® can have a big impact on the cost of installing, refilling and maintaining your skin care product dispensers. How? Beautifully. From easy-to-maintain cabinets, to a universal back plate that fits virtually all existing dispenser fastener hole patterns. GOJO NXT takes dispensing to the next level.

The next level in choice.

Now, more dispensing options to meet your needs.

One size *doesn't* fit all. GOJO® NXT® gives you more choices to plan and implement an effective skin care program for each workplace environment. Pick the capacity, size and configuration to do the job right.

In the end, it is what's inside GOJO NXT that really matters.

All of the most popular GOJO formulas are available for GOJO NXT Dispensing Systems. These are the recognized brands that people know and trust. PURELL®, the nation's leading brand of instant hand sanitizer, defined the category. PROVON® is specially formulated for healthcare environments. And a broad range of GOJO brand products, including gentle lotion soaps, sanitizing soaps, and shower soap and shampoo.

GOJO NXT SPACE SAVER™ 1000 mL system fits almost anywhere. It's half the size of old-fashioned 800 mL units. The smaller space design permits greater flexibility and allows ADA-compliant placement anywhere.

GOJO® NXT® SIDE-BY-SIDE™ system holds two 1000 mL refills - you create the combination of soap, hand sanitizer and skin lotion to best meet your needs. ADA-compliant for placement anywhere.

GOJO NXT MAXIMUM CAPACITY™ 2000 mL system for high-volume installations. It needs refilling half as often as traditional dispensers and helps ensure that users never run out of soap. ADA-compliant for over-the-sink placements.

Taking skin care to the next level.

Note: MAXIMUM CAPACITY™ and SPACE SAVER™ Dispensers are available in Dove Gray or Black.

Since 1946, GOJO has been a leading supplier of hygiene and skin care products for healthcare, manufacturing, education, foodservice, automotive and other markets. Our brands are formulated to clean hands, kill germs and help keep skin soft and healthy looking, even with the frequent use often required in these professional environments.
