A Complete Revolution

An EPA-compliant bag for every need.

REVOLUTIONBAG.COM

REMARKABLE PROCESS. REVOLUTIONARY PRODUCT.

1

CROP IRRIGATION

Revolution Bag's parent company Delta Plastics in Little Rock, AR creates agricultural polyethylene irrigation tubing. Tubing is used for only one growing season.

2

RECYCLING

After one season of use, the tubing must be discarded. For 15 years, Delta Plastics has reclaimed and returned the tubing for recycling.

3

RESIN PRODUCTION

Used plastic is recycled at Delta Plastics Stuttgart, AR plant through a patented process that transforms the materials from tubing to SCS-certified PCR resin.

4

BAG MANUFACTURING

Resin is transferred to Revolution Bag in Little Rock, AR where it is converted to blown film and trash bags are produced.

5

REVOLUTION

The end result is a full line of EPA-compliant bags in a variety of gauges and sizes that are distributed nationwide.
