

FOOD PREP SINK CLEANING

Tools Needed

- Properly Prepared 3-Compartment Sink
- Utility Buckets
- Non-Abrasive Pads
- Quat Test Strips (QT-10 or equivalent)

Products Needed

Dawn® Manual
Pot and Pan
Detergent

Clean Quick®
Broad Range
Quaternary
Sanitizer

FREQUENCY OF CLEANING: When switching between different species of meat (beef to poultry, etc.). When switching from raw to ready-to-eat foods. After four hours of continuous use. After the final use of the day.

SPECIAL DIRECTIONS FOR THIS TASK: If sensitivity to cleaning solutions is a concern, wear disposable gloves.

STEP 1

- Fill a clean utility bucket with warm Dawn solution from a freshly prepared 3-compartment sink by dipping the utility bucket into the solution.
- Place a non-abrasive pad in the utility bucket.

STEP 2

- Fill another clean utility bucket with clean warm water from the sink.
- Place another non-abrasive pad in the utility bucket.

STEP 3

- Fill another clean utility bucket with Quaternary Sanitizer solution from the freshly prepared 3-compartment sink by dipping the utility bucket into the solution.

- Test solution to ensure that concentration is 150-400 ppm using Quat test strip (QT-10 or equivalent).

- Place another non-abrasive pad in the utility bucket.

STEP 4

- Wash food prep sink with solution from the Dawn bucket.

NOTE: Change Dawn solution when dirty, cold or suds are gone.

STEP 5

- Rinse food prep sink with damp non-abrasive pad or by pouring from the utility bucket containing the clean warm water.
- Let solution completely run out of sink.

NOTE: Change rinse water when it becomes cloudy or dirty.

STEP 6

- Apply sanitizer with non-abrasive pad or by pouring from the utility bucket containing the sanitizer solution.

NOTE: Change sanitizer solution when concentration gets below recommended 150 ppm.

- Allow surface to air-dry.

STEP 7

- If used, remove and discard disposable gloves.
- Wash hands before returning to service area.
